Alfonsine Astronomy

The Written Record

Edited by Richard L. Kremer, Mathieu Husson & José Chabás

For more than two centuries in late medieval Europe, more than 600 manuscript codices, this written record of Alfonsine astronomy is the focus of the volume.

426 p., 56 col. ills, 15 b/w tables, 2022, ISBN 978-2-503-59520-7

The Tables of 1322 by John of Lignères

An Edition with Commentary

By José Chabás & Marie-Madeleine Saby

This monograph provides an edition of the Tables of 1322 by John of Lignères, the earliest major set of astronomical tables compiled in Latin astronomy.
